

BUILDERMT IS NAMED TO THE CONSTRUCTECH 50 2015 LIST

With its 35th Technology Award, BuilderMT Maintains its Status as the Most-Award-Winning Technology Company in Construction

CONSTRUCTECH
2015 **50**

Denver — July 9, 2015 — BuilderMT, a MiTek® company and the widely-acknowledged market share leader in workflow management solutions for mid-market home builders, today announced that it has won its 35th technology award.

BuilderMT has been named to the prestigious Constructech 50 list of the top technology companies serving the construction industry. This is the sixth time that BuilderMT has appeared on the Constructech 50 list.

The Constructech 50 list also names three BuilderMT integration partner companies: Sales Simplicity, CG Visions and Sage Software, Inc. All the companies on the Constructech 50 list are chosen in a highly-competitive, nationwide application and selection process.

“It’s always an honor to appear in the Constructech 50 list, but this year it is especially notable for two reasons: This is our 35th technology award, which is a real milestone, and it’s our first award as a MiTek company,” said BuilderMT’s President Tom Gebes. “On behalf of all of our employees and the professional services professionals who help implement and optimize BuilderMT systems for our clients, we’re genuinely proud of this award.”

About BuilderMT

For the home building industry at large, BuilderMT (a MiTek company) provides highly-customizable workflow and building-process-management software that works in tandem with leading accounting systems and other wireless and jobsite productivity tools, such as CRM and warranty management. For 20 years, BuilderMT systems have been purchased by more than 1,000 home builders and cumulatively used as a desktop workflow tool by upwards of 10,000 home building professionals. BuilderMT is widely recognized as a leader in process-driven, best-building-practices for home builders, as well as customer service, warranty applications, online training and innovative wireless applications.
