

BUILDERMT ADDS 11 NEW EMPLOYEES TO ACCOMMODATE SURGE IN DEMAND FOR ITS WORKFLOW MANAGEMENT SUITE

BuilderMT's #1 Market Share Position Strengthens, as the Company Staffs Up to Onboard Home Builders Seeking the Company's Award-Winning Solutions

Denver — November 6, 2015 — BuilderMT, the widely-acknowledged market share leader in workflow management solutions for mid-market home builders, today announced that it has added 11 new employees in the last 20 months. These employees have been added in response to strong and growing demand for BuilderMT's multi-award-winning Workflow Management Suite. The employees will serve in various roles, largely focused on rapid onboarding of new clients.

Already the #1 market share leader, BuilderMT has seen a great deal of interest in its Workflow Management Suite, driven in large part by innovations like BuilderMT's Cloud-based Builder Portal technology. A recent report from Scranton Gillette Publishers found that 59 Builders of the 293 home builders listed in their "2014 Housing Giants Ranking of the Largest Builders by Revenue" are BuilderMT Clients. BuilderMT also counts 43 software clients among the top-200 American home builders, as reported by Builder magazine. Since those reports were issued, BuilderMT has gained more new clients in the top 200 rankings.

"In case study after case study, BuilderMT users report rapid ROI on their software investment, to say nothing of the productivity enhancements they experience once the technology is in place," said Ward Griffith, BuilderMT's National Sales Manager. "We are now adding staff to ensure that the onboarding process is rapid, and that our valued legacy customers continue to see top performance from their BuilderMT WMS solutions."

"Recent BuilderMT functionality that has resulted from Client Advisory Groups includes BuilderMT's most-popular modules, such as Multi-Family Scheduling, the Variance Purchase Order Process in the Builder Portal, and BuilderMT's enhanced Tablet and iPad experience," commented Tom Gebes, BuilderMT's President. "We know of no other company that involves its user base so closely in technology development decisions."

About BuilderMT

For the home building industry at large, BuilderMT (a MiTek company) provides highly-customizable workflow and building-process-management software that works in tandem with leading accounting systems and other wireless and jobsite productivity tools, such as CRM and warranty management. For 20 years, BuilderMT systems have been purchased by more than 1,000 home builders and cumulatively used as a desktop workflow tool by upwards of 10,000 home building professionals. BuilderMT is widely recognized as a leader in process-driven, best-building-practices for home builders, as well as customer service, warranty applications, online training and innovative wireless applications.
