

BUILDERMT AND SALES SIMPLICITY NOW OFFER A **FULL RANGE OF ARCHITECTURAL, ESTIMATING AND PLAN SERVICES**

Home Builders of All Sizes Use BuilderMT PlanServices™ for Generating Estimates, Bills of Material, and Traditional Plan and Model Sets

BuilderMT and Sales Simplicity - both MiTek® companies - now offer a full range of home building estimating, architectural, and plan-drafting services. These services, collectively called BuilderMT PlanServices™, provide home builders with estimating and documentation services for creating plans, 2D and 3D BIM models, and estimates required for building code, planning, job costing, and construction. PlanServices™ can be purchased separately as a stand-alone service.

BuilderMT PlanServices™ is focused on the traditional architectural plan and estimating services.

“ The BuilderMT Plan Services Group took our site-specific plans and streamlined the drafting process, which Elite Built Homes used to move from its master plan set, to lot-specific plan sets, to sending the plans to the field to mitigate errors in construction. What used to take more than a week is now turned around in 24 hours. The quality and timeliness created a seamless transition.

- **Geoff Scholl**

Director of Purchasing, Elite Built Homes

With turnaround times measured in hours, not days or weeks, BuilderMT PlanServices™ offers a range of outsource offerings for home builders of any size:

DRAFTING

BuilderMT PlanServices™ offers both 2D and 3D drafting. The BuilderMT PlanServices™ team can immediately step in to assist in production of plan sets for permitting or customer sign-off, relieving home builders of the drafting work-loads from their in-house teams.

BIM SERVICES

BuilderMT PlanServices™ offers can help manage plan libraries, creation of master models, or lot-specific plan sets using the top BIM design tools in the home building market. BuilderMT PlanServices™ can also help organize model libraries.

ESTIMATING SERVICES

If you need accurate takeoffs/estimates, BuilderMT PlanServices™ now offers highly accurate takeoffs/estimates as an outsource, turn-key service.

RED LINES

BuilderMT PlanServices™ offers fast turnaround on “red lines” so customers’ last-minute changes to lot-specific plans can be accommodated.

These new out-sourced architectural, plan-drafting and estimating services from BuilderMT offers builders a wide range of services that are likely costing them time and money to keep in-house. We offer fast turnaround, measured in hours, not days or weeks, and when you tie these drafting services to our estimating capabilities, we believe we have truly unique, turn-key offering in the home building sector.
